## **DETAILED ACTION**

This is a first office action on the merits of patent application S. N. 10/511,228.

### ***Information Disclosure Statement***

The documents cited in the International Search Report have been considered according to the guidelines provided for treating an "Information Disclosure Statement in a National Stage Application" (MPEP 1893.03(g)).

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On claim 1, line 1, the addition of the word "type" extends the scope of the expression so as to render it indefinite.

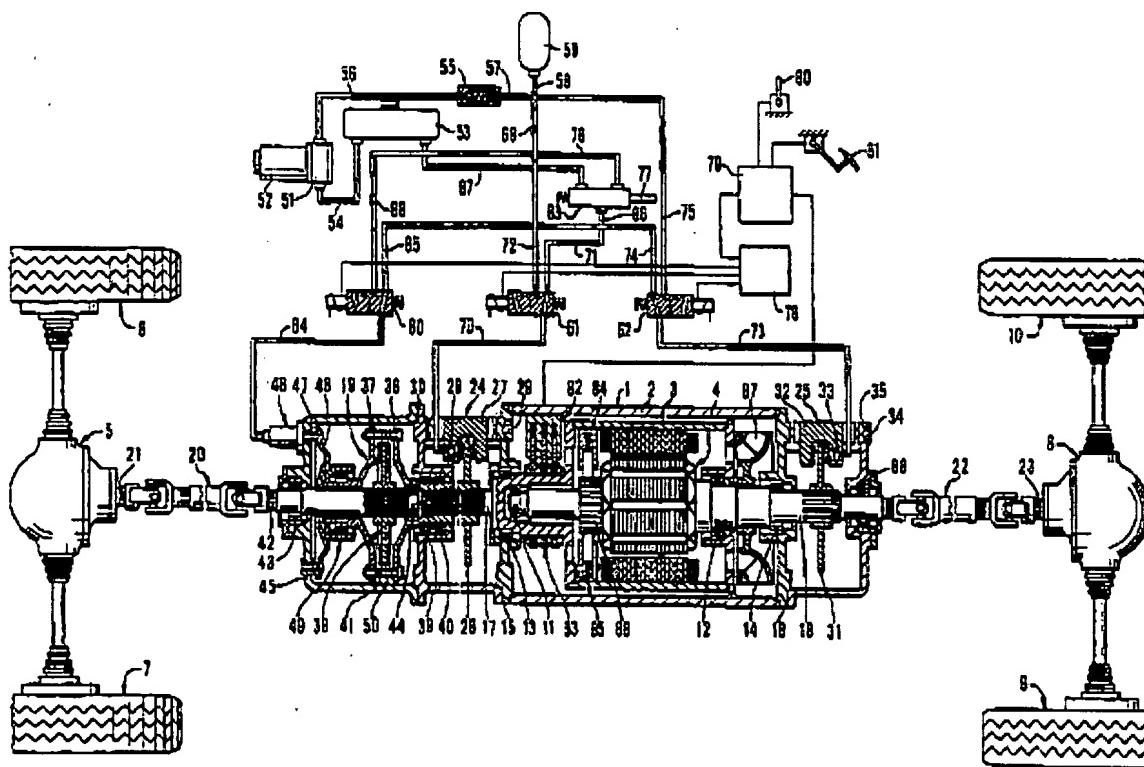

### ***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Radev ('358).

Art Unit: 3681

Radev discloses a control system/drive train (Figure) comprising a hydraulic brake system with a plurality of brake cylinders (24, 25), a hydraulic clutch (19), a master cylinder (63), a first actuator (61, 62), a second actuator (60), a controller (78), controllers for communicating signal, electronic control groups, and modular design.
